

JIVAYUSH

BIOSTIMULANT

HUMIC AND FULVIC ACID AND
THEIR DERIVATIVES

Farmers' first choice since 1974

JIVAYUSH

BIOSTIMULANT

HUMIC AND FULVIC ACID AND
THEIR DERIVATIVES

Potential yield of a crop can be achieved only when the plants are supplied with all the essential nutrients in balanced quantity at the right time as per the requirement at different growth stages. Multiplex Jivayush is uniquely formulated in powder form containing Humic, fulvic acid along with all major, secondary and micronutrients in balanced quantity and in easily available form. Many nutrients are in chelated form which are easily absorbed by the plants. It considerably increases productivity of the crops by quality and quantity.

DIRECTION FOR USE

Drip Irrigation: Use Multiplex Jivayush 100 g for one acre.

Soil Drenching: Drench Multiplex Jivayush at the rate of 0.5 g per liter of water. The total volume of solution to be drenched depends on the crop.

Foliar Application: Dissolve 0.5 g of Multiplex Jivayush in one liter of water and spray on both sides of the leaf

Time of Application: It is recommended for applying at critical stages of plant growth i.e., 10 to 15 days after sowing/ transplanting, pre-flowering and fruit setting with a spray interval of 15 to 20 days between the sprays.

Precaution

- Use the prepared spray solution immediately
- Do not mix with any herbicides

BENEFITS OF MULTIPLEX JIVAYUSH

- Chelates the cations and makes them available to the plant uptake
- Helps to accelerate the seed germination, better emergence and increases vigor in plants
- Promotes root growth, increases root respiration and better root proliferation
- Helps in synthesis of chlorophyll pigments thereby increases the photosynthetic activity
- Helps to combat against abiotic stress, pest and diseases
- Helps the plants to overcome transplanting shock
- Increases number of tillers, increases panicle formation and Grain filling
- Helps in production of Phytohormones, sugar, amino acids, enzymes and helps in translocation in plants
- Induces more flowering, increases fruit setting and Improves the yield both by quality and quantity

Packing: 100 g & 20 g
