## Complete Plant Food Fertilizer

मल्टीप्लेक्स  
सम्ब्रमा  
पौधों के लिए सम्पूर्ण उर्वरक

In modern agriculture application of fertilizers should be reliable and give immediate results. Ideally the potential yield of a crop can be achieved only when the plants are supplied with all the essential plant nutrients in balanced quantity (Major, Secondary and Micronutrients) and required quantities at different growth stages of the plant. Multiplex Sambrama uniquely formulated in tablet form contains all essential nutrients in balanced quantity. Many of the nutrients in this product are in chelated form, which are easily absorbed by the plants. It considerably increases productivity of the crop both by quality and quantity with two foliar applications.

**Packing:** Multiplex Sambrama is available as 5 g & 50 g tablet. Tablets are available in strip form and in pouches. Multiplex Sambrama in strip form contains 10 tablets of 5 g each. In pouch form it is packed in Jar containing 90 pouches and in Milk can with 360 pouches.

### DIRECTION FOR USE

**5 g Tablets** - First put one tablet of Multiplex Sambrama in one liter of water and keep for 10 minutes and stir well so that entire tablet is dissolved. This prepared solution is diluted by adding 14 liters of water and mixed and sprayed on both the surfaces of the leaves.

**For 50 g tablets** - First put one tablet of Multiplex Sambrama in five liters of water and keep for 10 minutes and stir well so that entire tablet is dissolved. This prepared solution is diluted by adding 145 liters of water and mixed and sprayed on both the surfaces of the leaves

**First spray:** 30 to 35 days after germination.

**Second spray:** 15 days after first spray

### BENEFITS OF MULTIPLIX SAMBRAMA

- Increases the disease, pest resistance and vigor in plants
- Helps plants to resist changes of environmental stress in a better way
- Improves the growth, yield and quality of the yield significantly
- Promising changes in appearance of the plant is observed within 6 to 7 days after the spray
- Compatible with majority of pesticides, fungicides and fertilizers that are commonly used
