MULTI MICRONUTRIENTS FERTILIZER

*Farmers' first choice since 1974*

# TEA SPECIAL® टी स्पेशल®

**MULTI MICRONUTRIENTS FERTILIZER**

Tea is a perennial crop and is one of the most important beverage crop in the world. Productivity in tea just like any other crop is dependent on several factors such as climate, soil, genotype and cultural crop management practices. However, balanced nutrition is very vital for plant metabolism for good plant health, increased productivity and most prominently revitalizing leaves with phytochemical constituents which contribute to taste and aroma in tea. In this regard Multiplex has developed an exclusive innovative research product Multiplex Tea Special which was formulated based on field research, expert suggestions, Institution Standards and Tea advisors opinion over the years. Multiplex Tea special contains balanced quantity of secondary and micronutrients, along with growth promoters which increases quality and quantity of yield.

## **DIRECTION FOR USE**

Mix 2 to 5 ml of Multiplex Tea Special in one liter of water and spray on plants. Spray should be preferably given immediately after plucking to facilitate effective absorption and to promote new foliage.

## **PRECAUTIONS**

- ♦ Ensure that minimum of 2 to 3 hours rain free period after spray for maximum absorption
- ♦ Spraying should be avoided in the afternoon hours to avoid scorching

## **BENEFITS OF MULTIPLEX TEASPECIAL**

- ♦ It supplies balanced essential nutrients in adequate quantities. No additional supply of micronutrients are required
- ♦ Ensures addition of fresh maintenance foliage and mother leaf in tea bushes every year
- ♦ Keeps plants healthy and increases productivity and quality of leaves
- ♦ Helps in the absorption and utilization of other applied nutrients
- ♦ Helps to release the fixed nutrients and makes them available for plant growth
- ♦ Contains required quantity of Auxin i.e., NAA for stability and efficient absorption of nutrients and for enhancing Photosynthesis
- ♦ Easily dissolves in water and hence guarantees maximum absorption and translocation
- ♦ Multiplex Tea Special is compatible with most of the Pesticides and Fungicides
- ♦ Regulates phytochemical constituents (Carbohydrates, proteins, amino acids, lipids, polyphenols, caffeine, minerals, and fiber) in tea leaves assuring the best flavor in tea
- ♦ Improves yield of leaf both by quality and quantity

**Available Package:** 100 ml, 250 ml, 500 ml, 1 Litre & 5 Litre

**Manufactured by**

**KARNATAKA AGRO CHEMICALS**
