

FALCON

Bio-Stimulant

Farmers' first choice since 1974

FALCON

फाल्कन

Multiplex Falcon contains essential plant nutrients, bio-activators such as alginic acid, vitamins, auxins and at least two gibberellins derived from seaweed. Multiplex Falcon acts as a biocatalyst and enhances the rate of metabolic activity and improves plant health.

DIRECTION FOR USE

Recommended Dosage: Dissolve 2 to 3 ml of Multiplex Falcon in one litre of water and spray on both surfaces of the leaves, we recommend three sprays.

First Spray 15 to 20 days after transplantation.

Second Spray during flower initiation.

Third Spray during the fruit development stage.

Available Packing: 100 ml, 250 ml, 500 ml, 1 litre & 5 l

BENEFITS OF MULTIPLEX FALCON

- Acts as biocatalyst, promotes flower initiation and prevents dropping of flowers, set fruits and grains
- Increases sweetness in fruits and TSS (Total soluble sugar) in sugarcane
- Improves aroma, size and keeping of fruits and grains
- Helps in efficient nutrient uptake and utilization
- Induces resistance to pests, disease and environmental stress
- Improves the yield both by quality and quantity
