MULTI MICRONUTRIENTS FERTILIZER

FOR MAIZE, JOWAR & BAJRA CROPS

SOIL APPLICATION

*Farmers' first choice since 1974*

# MAIZE SPECIAL

## MULTI MICRONUTRIENTS FERTILIZER

FOR MAIZE, JOWAR & BAJRA CROPS

SOIL APPLICATION

Multiplex Maize Special contains secondary and micronutrients in balanced concentration, as per requirement at different growth stages of Maize and Jowar plants. It helps to overcome nutrient deficiency and increases the yield. As the Millets are grown repeatedly year after year in the same field and certain nutrients which are required in higher concentration by millets are depleted continuously and hence nutrients deficiency occurs. To effectively overcome this problem Multiplex Maize Special should be used periodically

### DIRECTION FOR USE

Apply Multiplex Maize Special 50 kg per acre in two split applications of 25 kg each at sowing and earthing up.

### BENEFITS OF MULTIPLEX MAIZE SPECIAL

- It improves synthesis of chlorophyll in leaves and enhances photosynthetic activity
- Assists in better development of stilt roots giving good anchorage to the plants
- Helps in better uptake of applied soil nutrients
- Improves stem elongation, leaf area and sturdiness of the plants
- Helps in better cob development and grain filling
- Maintains uniform size, shape of grains and minimizes moisture loss during storage
- It improves grain weight of Maize and Jowar
- Improves the yield both by quality and quantity

Available Packing: 500 g, 1 kg and 25 kg
