# मल्टीप्लेक्स प्रमुख®

100% WATER SOLUBLE COMPLEX FERTILIZER FOR FOLIAR SPRAY

**N:P:K - 19:19:19**

**MULTIPLEX PRAMUKH** is containing NPK in the ratio of 19:19:19, is 100% water soluble fertilizer and can be used as a foliar spray or in the fertigation. Due to various soil factors, soil applied NPK fertilizer will be fixed apart from loss due to leaching. Thus nutrients will go beyond the reach of the plants. Quantity required for soil application will be higher. Application of nutrients through fertigation and foliar spray will be economical and is quickly available to the plants through roots and leaves respectively.

## DIRECTION FOR USE

**FERTIGATION:** Apply 2-3 Kg of **Multiplex Pramukh** through irrigation water per acre.

**FOLIAR SPRAY:** Dissolve 1 Kg **Multiplex Pramukh** in 200 litres of water and spray on both the surface of the leaves. 1 Kg is enough for an acre.

## BENEFITS OF MULTIPLEX PRAMUKH

- Multiplex Pramukh contains NPK 19:19:19 and can be used as foliar spray & for fertigation
- Multiplex Pramukh is quickly available to the plants and hence increases the growth and development of plants
- Multiplex Pramukh is a balanced NPK Fertilizer and hence maintains balance of NPK in the plant system
- Multiplex Pramukh keep plants healthy and greener
- Multiplex Pramukh increases the yield both by quality and quantity
