A MICRO EMULSION OF TEA TREE OIL  
AND CAMPHOR OIL

**ORGANIC DISEASE CONTROLLER**

**A BROAD SPECTRUM BIO-FUNGICIDE AGAINST FOLIAR PATHOGENS**

**Available Packing**

100 ml, 250 ml, 500 ml & 1 Litre

*Farmers' first choice since 1974*

# MULTIPLEX ROGNASH-B

## मल्टीप्लेक्स रोगनाश-बी

**MULTIPLEX ROGNASH-B** is a Bio-Fungicide formulation made from two biologically based potent plant extract substances which has the ability to rupture fungal cells and spores on contact with foliar pathogens. It inhibits spore germination resulting in the control or suppression of different foliar diseases in crops.

Multiplex Rognash-B can be used for the control of foliar diseases like powdery mildew and downy mildew in Grapes, Tomato, Chilli, Pepper, Cucurbits, Vegetables grown in field and in poly houses. This product should be used before the incidence of disease as a prophylactic measure or at the first sign of disease outbreak on the leaves.

### DIRECTIONS FOR USE

**SHAKE WELL BEFORE USE** - Mix 2.5 ml of Multiplex Rognash-B in one litre of water. 500 ml of Multiplex Rognash-B is required for spray on an acre of plot. For better results ensure that leaves are completely drenched with spray solution. In case of low incidence of disease repeat the spray at an interval of 7 to 14 days and in case of high incidence of disease repeat the spray once in 7 days.

**DIRECTION FOR PREPARATION OF SPRAY SOLUTION:** Fill the tank with half the total quantity of required water and to this slowly add Multiplex Rognash-B with continuous stirring while mixing. After complete mixing add the remaining quantity of water and thoroughly mix. Use this spray solution within 24 hours of preparation. For better results use wetting agent like Multiplex Maxiwet or Multiplex Nagastha-180 at the rate of 1 ml per litre of prepared spray solution.

### BENEFITS OF MULTIPLEX ROGNASH-B

- It develops disease resistance in plants against all foliar pathogens.
- Keeps leaves healthy by avoiding diseases and thus improves photosynthesis.
- It is compatible with commonly used insecticides and fungicides.
- It is an eco-friendly product and leaves no residues in the farm produce.
- Improves yield both by quality & quantity.

**STORAGE:** Store in a cool, dry place away from direct sunlight and heat source.

**CAUTION:** As a precaution, first spray the prepared solution onto a small area of the plot for testing the sensitivity of the crop to the spray solution.
