

SAFE ROOT

Trichoderma Harzianum 1.0% WP

**BIO-PRODUCT TO CONTROL PLANT PARASITIC NEMATODES
BIO-PESTICIDE (BIO-NEMATICIDE)**

**HELPS IN
BETTER
ROOT GROWTH
AND
PROLIFERATION**

Farmers' first choice since 1974

Multiplex Safe Root contains mycelia mat, conidia spores of beneficial fungi *Paecilomyces lilacinus* and *Trichoderma harzianum* in high concentration embedded in a special carrier material which is highly effective in controlling the Plant parasitic nematodes.

Safe Root produces substances that act on the eggs, adults & free living stages of plant parasitic nematodes causing deformation and loss of movement. Multiplex Safe Root is able to penetrate the egg and destroy the developing embryo.

Plant parasitic nematodes mainly Root-knot nematodes, Cyst nematodes, Burrowing nematodes, Citrus nematodes, Potato cyst nematodes, Rice root nematodes and Stunt nematodes can be effectively controlled.

DIRECTION FOR USE

Seed treatment: Coat the seed with Multiplex Safe Root at 10 gm per Kg of seed before sowing by moistening the seeds.

Drenching: Mix 5 g of Multiplex Safe Root in 1 litre of water and drench to the base of the plant with required quantity of prepared solution. Repeat the drenching after 15 days.

Soil application: For one acre mix about 4 kg of Multiplex Safe Root with 100 kg of Multiplex Annapurna or well decomposed Farm Yard Manure and broadcast in the field with sufficient soil moisture.

Pit application: For plantation crops we recommend repeated application of 25 g of Multiplex Safe Root in the pit along with Multiplex Annapurna or well decomposed Farm Yard Manure before and after planting.

Packing: Multiplex Safe root is available in 1 Kg, 500 g & 250g packing.

BENEFITS OF MULTIPLEX SAFE ROOT

- ◆ It controls nematodes and fungal infection
- ◆ Helps in better root growth and proliferation
- ◆ Keeps roots healthy, improves water and nutrient absorption
- ◆ Prevents forked, distorted, or stunted taproot in carrots
- ◆ It is eco-friendly
- ◆ Improves the yield both by quality and quantity in tuber and crops
