**MULTIPLEX BIO STRIKE** is a bio-pesticide containing broad spectrum active ingredients derived from different plants. It is effective against a wide range of pests such as sucking pests and lepidopteran caterpillars.

It contains active ingredients acting in different ways under different circumstances. This bio-pesticide is unique in nature as it is not an outright killer; instead it alters insect's behavior, life processes, eventually insects can no longer feed or breed or metamorphose, avoiding further damage to crops. Multiplex Bio Strike acts by ovicidal and larvicidal action. They disrupt growth processes of insects and act as a strong repellent or antifeedant.

### **DIRECTION FOR USE**

Mix 2 to 3 ml of Multiplex Bio Strike in one litre of water and spray on plants. It is highly effective when used as a Preventive/ Prophylactic application. We recommend regular sprays at an interval of 20 to 25 days for better results.

**Note:** In case of severe pest damage Multiplex Bio Strike should be mixed with other chemical pesticides and sprayed.

We recommend Soil Drenching of Multiplex Bio Strike to control root grubs and nematodes.

**Available Packing:** 250 ml, 500 ml, 1 litre and 5 liter packing

### **BENEFITS OF MULTIPLEX BIO STRIKE**

- ◆ It is a plant derived broad spectrum bio-pesticide with different modes of action against pests
- ◆ Strong repellent odour effectively prevents insects from sucking or eating plant parts.
- ◆ Prevents insects from developing resistance against Chemical pesticides
- ◆ It is eco-friendly and hence leaves no toxic residues.
- ◆ Prevents crop loss due to pest attack.
